**Subject:** Request regarding FMC received from Bill Bacon

Hi, Kevin. I received a request from Bill Bacon today related to the FMC slag piles. He is wondering if we have data in the site file (supplemental RI or risk assessment??) regarding the radiation dose coming from the slag pile. Specifically he is looking for the mrem dose.

Could you or BAH dig this up for him? I told him it would be at least a couple of weeks and he said as long as he got it within 2 months, that would be fine. I think you have his email (if you don't have it, I probably do), but he also gave me his phone number of 208-748-3822

Thanks!
